- better time management?
- Maybe more different ways of teaching to spark interests in students.
I didn't feel like my writing was improved after this class at all. The comments back from the essays were not helpful.
- Since he is teaching a course on money and morals, it would be helpful for him to understand more about the economic side. I found that he tended to focus on the philosophical and moral aspect quite a bit more.

Please share any suggestions for improvement

- The class was boring.. and it is hard to follow through. The topic could be more interesting if presented in a different way,
- The course wasn't helpful. The majority of the papers and assignments were a review of material that I previously learned in high school.
